## PROFESSIONAL SUMMARY

Frontend Developer skilled in React, JavaScript, and modern web technologies. Contributed to open source projects with 50+ merged pull requests and built AI powered applications and Progressive Web Apps. Strong interest in product development, accessibility, and user experience.

## EDUCATION

|                                                  |                  |
|--------------------------------------------------|------------------|
| <b>Bachelor of Technology</b> (Computer Science) | 2025 - 2029      |
| Newton School of Technology (S-Vyasa)            | Grade: 9.24/10.0 |
| <b>Intermediate (Class XII)</b>                  | 2024 - 2025      |
| B.R. International School, Valsad (Guj.)         | Grade: 90.6%     |

## PROJECTS

**Beyond the Reality** ( [Github](#) ) ( [Demo](#) ) February 2026

- Developed a trauma-driven psychological thriller game, featuring immersive storytelling, reality-switch mechanics, and puzzle-based progression.
- Designed stylised 2D interfaces, responsive gameplay screens, and interactive frontend experiences to enhance narrative-driven exploration and player engagement.

**SmartMedicines** ( [Github](#) ) ( [Demo](#) ) February 2026

- Built an AI-powered healthcare companion using React 19, Vite, JavaScript, Gemini API, and Vanilla CSS featuring prescription scanning, conversational medicine guidance, and drug interaction detection.
- Implemented medication reminders, browser notifications, emergency card generation, voice-assisted interactions, and an accessibility-focused responsive UI.

**System of Support** ( [Github](#) ) ( [Demo](#) ) December 2025

- Developed an offline-first Progressive Web App using React, TypeScript, CSS, service workers, and localStorage, providing emergency, shelter, healthcare, and community resources across 7 Indian cities.
- Implemented multilingual support, smart search filters, keyboard navigation, emergency mode, and privacy-first offline accessibility features.

**SmartAcres** ( [Github](#) ) ( [Demo](#) ) November 2025

- Built a responsive real estate platform using HTML5, CSS3, and JavaScript featuring advanced property filtering, dynamic listings, interactive modals, and EMI calculator functionality.
- Developed a responsive multi-page architecture with ARIA accessibility support, SEO-focused metadata, lazy loading, image lightbox navigation, and reusable JavaScript-based rendering.

## CERTIFICATIONS

**5th Place: AAYAM CP Individuals Competition** Newton School of Technology ( [Link](#) ) April 2026

- Secured 5th place among participants in a competitive programming contest focused on algorithms and problem solving.

**3rd Place & Best Ideation: Campfire Bengaluru Hackathon** Hack Club ( [Link](#) ) February 2026

- Secured 3rd place and won Best Ideation for developing an immersive psychological thriller game focused on storytelling, UI/UX, and interactive gameplay mechanics.

**Participant: Smart India Hackathon 2025** Smart India Hackathon ( [Link](#) ) September 2025

- Participated in a national-level hackathon focused on innovation, teamwork, and real-world problem solving.

## SKILLS

**AI / ML:** RAG, Gemini API

**APIs & Testing:** API

**Cloud & DevOps:** Git and Github

**Computer Languages:** HTML, CSS, JavaScript, Python

**Courses:** Data Structure

**Domain & Business Skills:** UI/UX

**Frameworks & Libraries:** React, Bootstrap

**Soft Skills:** Problem-Solving, Time management

## EXTRA-CURRICULAR ACTIVITIES

- Participant, ICPC 2025
- Volunteered in SheBuilds and BugBash hackathons at Aayam Tech Fest, assisting in participant support, coordination, and event execution
- Contributed to community outreach and resource distribution initiatives through a family NGO in Gujarat
- Participated in 9+ social service and donation drives as a Social Committee Member, collaborating with Robin Hood Army on food distribution and community support activities
